

THE TRUSTED HIRING PLATFORM

Hire independent talent with the confidence of a locked-in agreement.

TalentLock pairs AI-driven matching with binding, e-signed agreements and exclusivity guarantees — so employers and freelancers can commit to each other without the usual back-and-forth, ghosting, or contract ambiguity.

EXECUTIVE SUMMARY

Freelance hiring today is slow and risky: employers can't tell who's serious, freelancers get double-booked, and contracts are an afterthought. TalentLock closes that gap end-to-end — AI matches the right talent, an **exclusivity lock** guarantees a hire can't be pulled out from under you, and every engagement closes with a legally generated, e-signed agreement that both sides can trust. The result: faster hires, fewer disputes, and a paper trail that holds up.

Why TalentLock, in three moves

01

Match with confidence

AI recommends and explains every match, and can even work the search on your behalf, around the clock.

02

Lock the commitment

Once a booking is active, that talent is exclusively yours — no double-booking, no last-minute pullout.

03

Close on paper

Every engagement ends in an AI-drafted, e-signed, certified agreement — graded and downloadable.

What each capability means for the people actually doing the hiring and the work.

TRUST & SECURITY

Capability	What it means for you
Exclusive Booking Lock	Once you commit to a hire, that talent is locked to you — no competing offers, no disappearing candidates.
AI Agreement Generation & E-Sign	A legal engagement contract, drafted and ready to sign in minutes — no lawyer on retainer required.
Contract Health Score	Every agreement gets an instant A–F grade across clarity, fairness, and enforceability before anyone signs.
Contract Redlining	AI flags risky or unclear clauses and suggests fixes before you're bound to them.
Plain-English Summary	Freelancers get a jargon-free breakdown of payment, IP, and termination terms — no surprises.
Certified PDF Download	A signed, timestamped copy of every agreement, ready to file or share — on record for good.
Verified Credentials	Identity and credential documents are AI-reviewed, so a verified badge actually means something.
Enterprise-Grade Data Protection	Every record is access-controlled and audited — your data is only ever visible to the people who should see it.

AI-POWERED MATCHING & PRODUCTIVITY

Capability	What it means for you
AI Talent Matching Chat	Describe the role in plain language and get a shortlist of freelancers with real reasoning behind each pick.
Cruise Mode	Set your criteria once and AI applies to matching jobs on your behalf, 24/7, within your own guardrails.
TalentSearch	The employer mirror of Cruise Mode — AI scouts and reaches out to strong-fit freelancers automatically.
AI Proposal & Job Description Writers	Never stare at a blank page — generate a tailored proposal or job post in seconds, in your voice.
Smart Rate Suggestions	Price with confidence using live market benchmarks, right where you set your rate.

Insight, scale, and the plans that bring it all together.

INSIGHT, SCALE & TRUST SIGNALS

Capability	What it means for you
Earnings Intelligence	Freelancers see their earning trend, market percentile, and next month's projection at a glance.
Spend & Hiring Analytics	Employers get full visibility into spend, hiring funnel conversion, and where candidates drop off.
Visual Availability Calendar	See exactly when talent is free — auto-updated the moment a booking is confirmed.
Reviews & Ratings	A reputation that travels with every freelancer, with the right to reply built in.
AI Meeting Brief	Walk into every discovery call with a candidate snapshot, tailored questions, and rate context, ready-made.
Team Accounts (Enterprise)	One shared shortlist and one analytics view across an entire hiring team.
Teaching & Education Profiles	Purpose-built profile fields for tutors, lecturers, and researchers — not just tech talent.

PLANS THAT SCALE WITH COMMITMENT

Freelancer

Free to start; Pro unlocks unlimited job interest and Cruise Mode automation.

Employer

Starter through Growth scales booking volume, job posts, and AI quota.

Enterprise

Unlimited usage plus team accounts for organisation-wide hiring.

TalentLock turns hiring independent talent from a leap of faith into a locked-in commitment — matched by AI, secured by exclusivity, and closed on paper.
